

2024 Sea-Doo Vs Yamaha Vs Kawasaki

The 2024 watercraft from the top three manufacturers have arrived, and it's time for me to create comparison charts.

In this article, I have compiled all the specifications from each model and presented them in charts, allowing you to easily compare and find the best jet ski for your needs.

2024 Prices

Prices are in USD.

You may need to pay additional charges beyond the MSRP listed below, such as tax, title, and dealer fees.

Make	Model	Model
Sea-Doo	Spark 2UP 60HP	\$6,999
Yamaha	EX	\$7,799

Transmission & Hull

iBR, RIDE, and KSRD are all electronic systems for forward, reverse, neutral, and braking. They are among the best options available, making driving a jet ski much easier.

Sea-Doo first introduced iBR in 2009, Yamaha followed in 2015, and Kawasaki in 2022.

Jet skis with "Forward Only" are the most challenging to operate. Those with manual forward and reverse are easier, while the electronic systems are the easiest.

Model	Transmission	Hull
EX	Forward Only	Fiberglass
VX-C	Forward Only	Fiberglass
SUPERJET	Forward Only	VaRTM Fiberglass

Basic Features

The items are sorted based on basic features, which include cooling, the reboarding ladder (referred to as 'step'), and mirrors.

I've arranged the chart primarily by the reboarding ladder because I find it to be the most important and useful among these features. Many models that don't come with a reboarding ladder can have one added for an additional cost.

Mirrors are next in importance and are often a legal requirement for tow sports in many areas.

Model	Cooling	Step	Mirrors
Spark 2UP 60HP	Closed Loop	No	No

Driving

Most models these days have different driving modes, from Sport to Eco, along with ones that are meant for pull sports.

Many models also have trim, which raises and lowers the nose of the watercraft. This helps with different water conditions and pull sports.
